January – October 2026	Any marathon with UKA (or international equivalent) road race and course measurement certificate	26.2 or	Long		To be completed by 31 <sup>st</sup> October 2026

Your best 7 races to count – you must compete in a minimum of 7 events to qualify. Runners must complete a minimum of one race from each distance to qualify – short, medium and long - with the exception of over 65s, for whom the 'long' distance is optional. 10 mile races can be counted in either the medium category or the long category. Scores will be included on the published points table for competitors as long as sufficient races remain for them to compete the required minimum of 7. 'Old style' club vests will no longer be accepted for races. You must wear one of the newer navy vests or t-shirts for your time to be counted in the championships. Gun times will be used to determine places and points except for marathons and races where there is chip timing only.
